

COMPU DROPS[®] 1%

Eye Drops

(Carboxymethyl Cellulose Eye Drops IP 1% w/v)

COMPOSITION:

Sodium Carboxymethyl Cellulose IP	1.0% w/v
Stabilized Oxychloro Complex	0.0075% w/v
(as preservative)	
Water for injections IP	q.s.

Pharmacological Action

The mode of action of Compu Drops 1% as a lubricant is entirely mechanical. It has no pharmacological activity. Due to its high molecular weight, Compu Drops 1% is unlikely to penetrate the cornea.

Indications

Compu Drops 1% is indicated for use as a lubricant in dry eye (keratoconjunctivitis sicca [KCS]).

This indication includes the temporary relief of burning, irritation, and/or discomfort due to dryness of the eye.

Compu Drops 1% is indicated for lubricating and rewetting of soft and rigid gas permeable contact lenses. It is also indicated to relieve the dryness, irritation, and discomfort that may be associated with lens wear.

Contra-Indications

Compu Drops 1% is contra-indicated in patients with previously demonstrated hypersensitivity to any of the ingredients

Warnings

For external use only. Do not use if solution changes colour or becomes cloudy. Discontinue use and consult a medical practitioner if eye pain, changes in vision, continued redness or irritation of the eye is experienced, or if the condition worsens or persists for more than 72 hours.

If irritation develops, discontinue lens wear and consult the eye practitioner. Use before the expiration date marked on the container.

To prevent infection, NEVER wet contact lenses with saliva or place lenses in mouth.

For use with rewetting indication:

Not for use in lens case.

Interactions

Concomitant ocular medications should be administered at least 5 minutes apart from the instillation of Compu Drops 1% to avoid washout effects.

Pregnancy and Lactation

There are no data on the use of Compu Drops 1% during pregnancy and lactation in humans. Animal studies did not show harmful effects with the active ingredient carboxymethylcellulose. Because Compu Drops 1% is not absorbed systemically, there is no known potential for excretion in human breast milk.

Dosage and Directions For Use

Compu Drops 1% may be used in conjunction with rigid gas- permeable and soft contact lenses.

Dry eye indication

Instil 1 or 2 drops in the affected eye(s) as needed.

Rewetting indication

To lubricate and rewet soft and rigid gas-permeable lenses during the day: With the lenses on the eye, apply 1 to 2 drops to each eye as needed, or as directed by the eye care practitioner. Blink several times.

Side-effects and Special Precautions

Side-effects

The following adverse drug reactions were reported with Carboxymethyl Cellulose 1%:

Eye disorders

Very common ($>1/10$): Visual disturbances and eye discharge

Common ($>1/100$, $<1/10$): Ocular discharge and eye pruritus

Less frequent ($>1/1000$, $<1/100$): Conjunctival hyperaemia and eyelid edema
