Benzalkonium Chloride Solution IP ..... 0.02 % v/v  
(As Preservative)

Water for Injections IP ..... q.s.

### Category:

Anti-histamine + NSAID

### Description:

Clear colorless solution free from visible particles.

### Inactive Ingredients:

Disodium Edetate, Hydroxypropyl methyl cellulose, Sodium Chloride & Sodium Hydroxide

### Indication & Usage:

This is a combination of two medicines: Ketorolac and Olopatadine, which relieves eye itching/discomfort caused by seasonal allergies.

### Mechanism of action:

Ketorolac is a non-steroidal anti-inflammatory drug (NSAID). It works by blocking the release of certain chemical messengers that cause pain and inflammation (redness and swelling) in the eye. Olopatadine is an anti-allergic which blocks the action of certain chemical messengers responsible for red, itchy, watery eyes.

### Side Effects & Precaution:

The most common side effects include burning sensation, discomfort, pain, and irritation at the application site. If these side effects persist for a longer duration, inform your doctor. In case by accident, this medicine goes into your ears, nose or mouth, immediately rinse it with water.

Inform your doctor if you are pregnant or are allergic to this medicine or taking any other medication. This medicine is safe to use in breastfeeding mothers. It is advised not to drive or operate heavy machinery after use of this medicine as it may cause blurring of vision and may affect your ability to drive.

### Dosage:

This medicine is for external use only. Take it in the dose and duration as advised by your doctor

### Over dosage:

If you apply excess of Olopatadine Hydrochloride with Ketorolac Tromethamine Eye drops accidentally, wash your eye with plenty of water, and inform your doctor immediately

**Storage:**

Store in a cool place. Protect from light. Keep out of reach of children.

**Warnings:**

1. If irritation persists or increases, discontinue the use and consult your physician.
2. Do not touch the nozzle tip to any surface since this may contaminate the solution.
3. Use the solution within one month after opening the container.
4. Replace nozzle cap immediately after use.

NOT FOR INJECTION

FOR EXTERNAL USE ONLY

Shelf life: 24months from the date of manufacture.

**Presentation:**

Allerpat KT is a sterile clear colorless solution filled in 5ml Sterile Gamma-irradiated white opaque LDPE bottle sealed with Sterile Gamma-irradiated natural transparent LDPE open nozzle and Sterile Gamma-irradiated white HDPE tamp safe cap.

**Directions for use:**

Turn the tamper proof cap anti-clockwise to break the seal.

Remove the cap, dispense drops with gentle pressure.

Replace the cap immediately after every use.
