Propylene Glycol Ophthalmic Solution (0.4% & 0.3% w/v)

### COMPOSITION:

Polyethylene Glycol 400 IP.....	0.4% w/v
Propylene Glycol IP.....	0.3% w/v
Stabilized Oxychloro Complex .....	0.005% w/v
(As Preservative)	
Water for Injections IP.....	q.s.

### Pharmacological Classification

Lubricant

### Pharmacology

Biphasic mechanism of action in which the product first binds to damaged hydrophobic areas of epithelial cells to add volume to the tear film, and then restructures the tear film by forming a protective gel matrix that provides long lasting protection. The high molecular weight of Hydroxypropylguar molecules, along with the natural mucin layer, prolong retention of the eye drops and protects the ocular surface, which provides sustained lubricants to the eye and protects the ocular surface from further damage while the surface epithelial cells undergo repair and renewal.

### Indications

Cellwet Ultra is indicated for the temporary relief of burning and irritation due to dryness of the eye.

### Contra-indications

Cellwet Ultra is contraindicated in patients hypersensitivity to any of the ingredients.

### Warnings and Precautions

- If irritation pain, redness or changes in vision occur or if the patients condition worsens, treatment discontinuation should be considered.
- Remove contact lenses before using this eye drops.
